Today you're going to need the nourishment that milk provides. Why aren't you drinking it?

Like many Canadian women, you've probably lost the milk-drinking habit. If that's so, you've also given up your best all-round supplier of nutrients you need for health, stamina and vitality.

No other single food approaches milk for all-round nutritional value, delivered in a form that is readily available, economi-cal jand easy to use. What's more, abe nutrients it provides are all basic requirements for the health of adults as well as of children.

Six nutrients provided by milk. You never outgrow the need for them.

From the day you are born until the day you die, your body needs these untirents to keep itself in good running order and to generate the "bounce" and vitality you need to get the most out of life.

Calcium. Your

Protein. The protein supplied by milk is of the highest quality—the same type as the protein found in meat!

Vitamin A. Whole milk is an excellent source of this vitamin, but skim is not. So if you use only skim milk be sure to get Vitamin A from another food source-for example, yellow or green vegetables.

Phosphorus works with calcium in bone and tooth repair. Milk is an excellent source of it.

Thiamin, another factor you need for health, is also supplied by milk.

Also, in Ontario, VTTAMIN D is usu-ally added to milk look for the words "Vitamin D Added" on the cartes or lid.

Why did you stop drinking milk?

Somewhere around the time you turned 13, no doubt, you too did what most Canadian girls do.

Canadian girls do.
You began to feel grown-up. You ex-perimented with lipstick shades and hair styles. You put away your dolls.
And you stepped drinking milk.
Bythe time you were grown-up enough

not to think milk was "kid-stuff," you'd grown out of the habit of drinking it regularly, and never took it up again.

Should you care? Listen to this: a national nutritional survey, recently completed (and the most thorough ever undertaken) Identified a certain very specific group as "the worst-fed people in Canada".

Who were they? Canadian girls and

You can't feel well unless you eat well.

"Feeling well" does not just mean the absence of aches and pains. It means something much more positive than that. It means having a zest for life. Being able to get through a demanding day without being drained and exhausted by it.

without being drained and exhausted by it.

It means having pep left over, after you've done the things you must, so that you can enjoy the things you want to do.

You don't necessarily feel ill because the foods you eat don't give you adequate nutrition.

ing mus every cay.

If so, you'll be doing two kinds of good, not one. You'll be helping yourself along the road to better health...and the vitality and mental buoyance that goes with it. And you'll be setting a good example for your children, too.

If they see you drinking milk every day, they'll get the idea that milk is a food that nobody ever outgrows.

And they'll be absolutely right.

Nature's most nearly perfect food.

Of all the natural foods, milk is the most complete. None other can match it as a balanced source of most of our dietary

needs.

And that goes for male or female, adult or child. As long as you live, you still need the nourishment that milk can provide.

So—especially if you've stopped drinking milk regularly—consider that fact.

Maybe it's time to start again.

BELLEVILLE YARDMEN

BENEFIT FUND CENTRE

Last year, we set up a new \$150 Employment Expense Deduction that applied to most Canadians...but almost half a million people forgot to take it.

Probably because it was new and we didn't fell you enough about it, you forgot to take advantage of it. And of course, when we ran across the oversight on your return, we corrected it and made sure you did get it. (Which also explains why a number of people received a refund that was more than they expected.)

966-1621

expected.)
Anyway. This year remember to deduct your \$150 Employment Expense Deduction, because if we don't have to correct it on your return, we can process it faster and in turn, get your refund to you faster.

Who does it apply to?
Afmost every employee who worked for any length of time last year. There are very few exceptions to this, which are outlined in your Guide, item 4, but by and large it's for everyone who was employed.

Does everyone get an automatic \$150?
Actually, it's calculated at a rate of 3% of your employment income, to a lotal of \$150. Which means that it you earned \$5,000 more, you automatically get \$500 and you don't have to bother calculating anything.

If you earned less than \$5,000, you're entitled to 3% of what you earned as a deduction (i.e., if you earned \$3,000 last year, you can claim 3% of that, which is \$90, as your Employment Expense Deduction).

Where is the Employment Exper Deduction explained in my guide? It's Item 4 in the Income Section and it's clearly labelled "Employment Expense Deduction".

Expenses Deduction:

Where do I enter it on my form?

On Page 2, the one that deals with "Summary of income and Deductions". It's near the top of the page in the section labelled "Income from Employment", and you enter the figure on the line numbered d5.

Is anyone allowed more than \$150?
No,\$150 is the maximum allowed, no matter what you earned, Just promether that if you did earn a salary last year, as an employee you're almost certainly entitled to the deduction, so take it.

((,5)

Together. ve can get it done.

Joan Fielden Says...
In today's busy life style it is difficult to be sure
every ember of the family is well-fed.
Therefore, it is important to select a varled diet;
one which includes nutritionally valuable fruit and
vegtables—embed and whole gran cereal prodquet, meat and milk and moderation in other foods.

Lung Power

It takes a lot of stamina to be an army cades in the city's Rastings-Prince Edward Regiment. There's drill, manouvers, marching and target practice. Here, cades Rick Ruttan applies his lung power in blowing up a balloon that will be used in target practice later in the year. The tota is for the cades to shoot at the balloon target as it pops up on the range.

Weed control in corn starts here

corn herbicide

AAtrex is the greatest name in corn herbicides:
More growers depend on AAtrex than on any
other herbicide for the simple reason that it
has more going for it.

- AAtrex is effective against both annual broadleaf weeds and most grasses
- . Control lasts through to harvest
- · AAtrex can be applied pre-plant, at plant-
- ing and post-emergence
- A shallow cultivation will activate AAtrex in dry weather
- · AAtrex is economical

AAtrex 90W . . . for those who prefer a wet-table powder, less bulk to handle, high quality. Also available in the familiar 80W formulation.

AAtrex Liquid, easiest to measure, mix and keep in suspension, gives most uniform application, covers more area with every tankful. For more information talk to your AAtrex dealer.

ADOPTING PARENTS My employment with the Children's Aid So-ciety is over as of April 3rd, and since I had ad-vance notice of only 2 hours prior to this I know that it is impossible to the up five years of work in that short space of time.

I know many of you will be seriously incon-venienced by this and I'm deeply sorry to add to the anxieties you already have as you wait for children.

Margaret Baile is already on staff to take over and I hope you will bear with her as she tries to adjust to the sudden change and increase in volume of work she must cope with.

In volume of work she must cope with.

I have given her a copy of this letter so she will know that if she wishes to contact me for clarification of my interaction with you, I am willing to share any information which she or you might find helpful.

Sound Advice From Rollins Lumber!

AVOID HIGHER COSTS!

owning your own home down, we cannot halt the increasing price of materials. What this means to you is, the sooner you act, the less you will pay. With our Self-Help Plan, it is possible for you to start right away.

Here is how the Self-Help plan works, Rollins Lumber's expert framing crews will erect the shell of the home design you select and provide quality materials to finish the interior. You are given the opportunity to do the inside work, saving several thousand dollars in labor costs. The key to Self-Help is "saving you money".

now and Rollins Lumber will provide helpful assistance in obtaining the right mortgage for your needs. When you build the Self-Help way, NO DOWN PAYMENT is necessary, so there is nothing blocking your way into that new home you've always wanted.

Don't pay more than you have to for that new home. Build it the Self-Help way and place your order now. You'll be glad you let Rollins Lumber help you.

That's what many of our customers say **BUT ARE THEY FOR YOU?**

These facts may help you decide...

The Radial Tire is a giant step forward in the evolution of transportation. A new dimension in safety and driving aeatheries. Canadian Tire has been questioned and the safety and the safety and the safety of the concentration and the high cost of producing the kind of Radial to which we could conscientiously apply our Super-Lastic Safety 99 label and give assumpne of values.

Experience through millions of road-miles has piled up encouraging customer-evidence that ours is extra serilarary radial value. Now, independent testing shows: Safety 85' Long Cord Radial Selivering appraciable more miles per doller than the next best 10 tested; and 100% better value than a popular foreign import

Frequently the tire industry is accused of confusing tire buyers. We believe our seccess lies in a willingness to bare all the facts. In doing so, we prove beyond any doubt that Casadian Tire makes customer tire-dollars go farther.

To that end, the following comparison of values is given for the popular size G/15. Categories shown are the industry's three popular types of tire. The three mileages shown are purely relative, based on observation and not juaranteed. Some drivers may get more, others less mileage.

- (1) When our Safety 29 Raiffel, et 943.51, gives 50,000 treed miles, a customer pays 87¢ per 1000 miles.
- (2) When our 2+2 Glass-Belted Polyester at #24.60 provides 39,000 miles, the customer-cost is 82¢ per 1000 miles.
- (3) When our 4-Ply Polyester, at \$18.50, provides 18,000 miles, castomer-cost works out to \$2¢ per 1000 miles.

equipment reads like a list of options.

For those boaters who refuse to accept any-thing less than the best, Evinruda Intro-duces the limited edition SS13S supermotor. From your first look at its satin-silver finish, you'll know that this is no ordinary outboard.

outboard.

But look a little closer, You'll find PushBut look Power Trim and Power Till, a cupped
Stainless Steel Telion performance propeller and a High-Output 12 amp. Alternator—
features that are only available as expensive options on other outboards.

On the no-compromise SS135, they're all standard equipment.

There are no compromises inside the engine either. With features like Firepower electronic [giltion, puise-luned exhaust and pressure-backed piston rings for increased tuel efficiency. And, of course, Evinnude's smooth, guiet, low-profile V-4 design.

When you take to the water with the new SS135 behind your boat, you've got it made. And everybody will know it.

See the other sleek Evinrude V-4's, the 135, 115 and 85 hp, at your Evinrude dealer. Every Evinrude for 74 is designed to conserve energy by recycling unburnt fuel into additional power. And because every Evinrude is drainless, we're keeping our waters clean tool

Happy Easter!

Easter is always a rice time of the year.
It's a time for families, going to church together and children looking for Baster eggs.
At King George School Usk week, a kinder-garten class kept busy coloring eggs as well

as helping out in the making of a bunny cake.
While David Shaw, left, and Connie Rodgers
look on with keen interest, John Kenning
shows them the egg-sacting art of coloring

Drug Usage

Whether because of increased surveil-iance and better reporting or not, the fact is that more people than ever are now using narcotic and mood-modifying drugs in Can-

narrotic and mood-modifying drugs in Casfa.

The public at large is far pass gettlingpatientarly castisf over such information.

Drug users, or anyone contemplating their use, might take note.

Letting it Out

It is nothing new really to be told that swearing, in moderation, is good for you.

In any event, here it is again, this time on the authority of the respected modical journal, World Stedicine. It is were not for the odd obscurilly, it says, people would notice up too many emotions.

When Prince Charite was ashore in Call-

formia recently his conversation at a recep-tion on board his frigate was said to be freely sprinkled with "helia" and "damna".

mbied with "helis" and "damma". These of course are relatively "polite" ctives. There are others though in mon usage which demean both the puage and the person vulgar enough to or them. But that is their loss and they best ignored by the rest of us. What is needed is a sense of proportion.

Reduce Speed

In his budget statement

your a madget.

In his budget statement
Treasurer John White reported
that he expected a deficit of
\$625 million in the coming year
and a total shortfall in cash of
\$708 million. While at the same, time he couly announced that he was assuing on reducing public bit by \$449 million.

You are going in the hole some \$725 million and yet you can reduce your debts by nearly \$460 million. No. not at all.

The province still is going in the hole as much as ever, but

Put safety first.

You know when you are overburden-ing your home's electrical system. Your appliances don't perform as they should. Your lights dim when other appliances are turned on. other appliances are turned on. You are constantly using extension cords. And your fuses blow! It all adds up to —a ninsufficient amount of power, and not enough circuits and outlets. What is not as easy to detect is the extent to which your overburdened wifing is heating up and causing its insulation to dejetariorate. Such wiring can be a fire hazard.

And that's reason enough to have it checked and if necessary replaced. Rewiring brings other benefits. Improved performance and longer life of appliances. The convenience of ample outlets and switches. Sufficient power to handle the requirements of your family.

If your home to move of the your home, and addition or remodelling an old home, call a qualified Electrical Modernization Contractor.

North America And what's more, we've just had the best year in our ninety year history. To begin with, our consolidated net sales in 1973 were 56.128 million. Our net earnings improved 59%, over the previous year—to reach a new total of \$52 million. We instituted an international program of plant expansion. And to date we've created over 824,000 square feet of new manufacturing floor space at eleven sites in Canada, the United States and the European Common Market.

In less than two years, Northerm

Telecom, our U.S. subsidiary, has achieved sales of \$48.1 million. To protect our position and ensure our level of expansion in the future, we've increased our annual R&D expenditure to \$32.7 million. Over the past five years, our average annual R&D expenditure has been \$29 million.

Getting Under the Eaves

It's trick work on the roof tops, but it's all in the line of AT WICK WORK ON the POOT tops, Dut EY all in the line of duty when building homes. Workers put up plywood in the gable end on a Montroe Rd. area home in early spring. I have those of Pair when, home hobbylast start kinking at home hingerequent, To meet that spring-kindled interest, the Quinte Home Buildiers Association is holding in their annual, Quints

eshow '74 at Ben Bleecker Auditorium. The show, which starts tomorrow and runs through Saturday this week, will feature a wide range of products - from lumber, lettchen cabinets, wall panelling, fooring, to power equipments. Over 30 exhibitors have booths booked for the exhibition.

Space limitations at the Mail forced the builders' group to consider looking for larger show prevales

"We just outgrew the Mall," said organiser Douglas Heyworth. Many exhibitors this year are in the show for the first time. Others are using more space than they had in the first two annual shows. He said wall panelling, wallpapers and paints, an

anded range of floor coverings, kitchen cabin are being displayed this year, but were not in 1973.

Draws by four Believille firms will be held during the exhibition. Stanley. Structures Ltd., Loewen Heating and Air Conditionang Ltd., Robert Michaed Ltd., and Arthur A. Sills and Son Ltd. are sponsoring free draws.

Companies that exhibit during Homeshow 74 will be running discounts at their normal business locations. Staff will be available at Ben Bleecker booths to answer questions and explain individual products.

However, no pressure wil be put on peope to buy, says Mr. Heyworth.

Primariy, the show is geared to fluxirate the wide variety of products available to those who are contemplating changes to their homes or are just interested, he said.

How do you know what's fair when it comes to Transatlantic fares?

is our '315 Bargain really a bargain? Well, first, consider what it will get you. Well if you from Toronto to London or Manchester for 22 to 45 days for as little as 3315 return. Or to Glasgow for even less. You can choose a Friday or Saturday departure for 6/19/13 for more, your children under 12 travel half-fare, and you lift on a regolutiny-cheducide finish. ways jet. So, unlike the charten fre's no deposit required, no risi cancellation, lexibility of travel tes, and a full refund if you have tes, and a full refund if you have hange your plans. And, just as-vortant, you get the kind of super vice and attention in British.

Consider who's offering the '315 Bargain.
British Airways is quite simply the largest international aritine in the world. And, we think, the best. We's got almost 200 destinations in 88 got almost 200 destinations in 88 dilferent countries. and The Intelligencer

Yes carriers, The Intelligencer by special arrangement with Stephen Licence Ltd., 323 Front Street, Belleville, offers all carriers a most exciting opportunity. This is your chance to win a brand new CCM TARGA 10-SPEED BICYCLE, like the one shown below — and merchandise prizes you've dreamed about. Three bicycles will be given away; one to the carrier signing up the most new customers in the city, one to the carrier signing up the most new orders in the country and one on a draw basis. So as you can see every new customer you sign up increases your chances. PLUS for each new subscriber you sign up you will receive a Bicycle Buck which has the value of \$1.00 on the purchase of any merchandise at Stephen Licence Ltd. Visit Stephen Licence and see all the wonderful things you can buy with your bicycle bucks.

If you're a farmer planning for the future, the Commerce has the financing you need.

As a farmer you know the importance of planning for the future of your farm business. Often your plans will include the purchase of new machinery, breeding more, additional land or perhaps the construction of a new busining. All of these cost money. At the Commerce we know and that's when we can help out the money you need now. But the important thing int the leading, it's the way you can pay back. Over a number of years to

suit your cash flow.

The person to talk to is your local Commerce manager. Whatever your credit needs, he can arrange a whole credit package specifically tailored to your farm operation. Whatever it may be. If you wish he can also arrange low-cost farm credit life

msurance.
So if you're a farmer planning for the future, see us first. Ask about Commerce financing. It pays in the long run.

How to save energy and cut your fuel costs.

Regardless of the heating system or type of fuel involved, good insulation is the key to improved home comfort with lower fuel consumption. In any building, heat escapes through ceilings and walls, insulation reduces that loss considerably.

If you're planning to build a new home-or modernize an existing one-make proper insulation a must. The Ontario Electrical League requirements provide your best guide, and your Hydro will be pleased to give you any infor-mation you need on the subject.
